The Crossfire 500 marks a new middle class: inspired by timeless beauty, redefined by the iconic X design. Developed in the heart of Europe and widely praised by the press, the fledgling Crossfire 500 is already well on its way to becoming an all-time classic. With adjustable KYB suspension, a highly-responsive J.Juan braking system and the golden mean of twin - cylinder engine design, it hits the line you're aiming for. The 500X has a flat seat, wide handelbars, rougher MT60 Pirellis, plus, the license plate holder is mounted in classic fashion under the seat. All that gives the 500 X a raw appearance that radiates nothing but readiness. It doesn't nag about the curb you didn't want to go around or the dirt road you took on the way home. It's this laid back attitude that the Crossfire 500 X carries within, giving you confidence in any riding situation. True riding, true sound, true motorcycling.
