ABOUT **TENNIS 1500**

The Renaissance of Urban Motion Conceived in Italy by the legendary Alessandro Tartarini, the VLF Tennis 1500 brings a new era of "Chic Electric" to Indian streets. It is a masterclass in minimalist European design, where every curve serves a purpose. This isn't just a scooter; it's an extension of your personal style—an elegant, silent statement for those who lead the way rather than follow the crowd.

DESIGN **MODERN MINIMALISM**

Italian Artistry by Alessandro Tartarini The Tennis 1500 is a masterpiece of European minimalism, sculpted by the legendary Alessandro Tartarini. It breaks the mold of conventional EVs with a "Neo-Retro" silhouette that balances nostalgic curves with sharp, futuristic accents. Every detail, from the signature LED signature to the sleek high-tensile steel frame, is designed to turn city streets into your personal runway.

Tennis

CHASSIS **EUROPEAN PRECISION**

The VLF Tennis 1500 is engineered on a high-tensile tubular steel frame. Designed for the sophisticated city dweller, its architecture ensures every turn is effortless.

Ultra-Lightweight Build: Tipping the scales at just 88 kg, the Tennis 1500 offers class-leading agility, making it the most approachable luxury scooter in its segment.

Advanced Suspension: Equipped with telescopic front forks and a unique hydraulic monoshock with a progressive cantilever system, it glides over urban undulations with silk-like smoothness.

Aluminium Swing arm: A premium touch that reduces unsprung weight, enhancing both the scooter's performance and its high-end aesthetic appeal.

Superior Braking: Dual disc brakes (front and rear) paired with a Combi Braking System (CBS) provide confident, surgical stopping power on busy Indian roads.

More Cushioning effect than Traditional Suspension

ERGONOMICS

SOPHISTICATION IN EVERY STITCH

Beyond its Italian silhouette, the Tennis 1500 is a masterclass in rider-centric design. It prioritizes a "natural-feel" posture, ensuring that your commute feels less like a task and more like a lifestyle choice.

Inclusive Seating: An accessible 780mm seat height allows for a confident, feet-down stance, making it perfectly suited for a wide range of riders.

Optimal Rider Triangle: The upright seating position and generous legroom are tailored to reduce fatigue, keeping you fresh from the office to the evening gala.

Premium Bench Saddle: A sleek, single-piece seat designed with high-quality materials to provide plush support for both the rider and pillion.

Practical Luxury: Features a spacious 18-litre under-seat storage and a flat floorboard, seamlessly blending high-fashion design with everyday urban utility.

BATTERY

THE ENERGY CORE: ADVANCED LMFP TECHNOLOGY

Experience the future of energy with the VLF Tennis 1500's advanced LMFP (Lithium Manganese Iron Phosphate) battery.

Engineered for the Indian climate, this high-performance 2.5 kWh unit is encased in a premium Aluminium shell for superior heat dissipation and safety.

Exceptional Range: Travel up to 150 km (IDC) on a single charge.

Rapid Refuel: Power up from 0 to 100% in just 3 hours.

Total Portability: Fully removable design for convenient charging anywhere.

Thermal Mastery: Aluminium casing ensures consistent power and durability during peak summers.

SPECIFICATIONS

MOTOR

Motor type	BLDC Hub Motor
Peak Voltage	72 V
Peak Torque	150 Nm
Peak Power	2.1 kW
Top Speed	31/ 51/ 65 Kmph (Eco, City, Sports)

BATTERY

Type	LMFP
Power	2.596 kWh
Capacity	36 Ah
Voltage	72V

DIMENSIONS

Length	1900 mm	Ground Clearance	140 mm
Width	670 mm		
Height	1100 mm	Kerb Weight	88 kg
Wheelbase	1238 mm		
Seat height	780 mm		

SUSPENSION

Front Wheel Suspension	Telescopic Fork
Rear Wheel Suspension	Hydraulic Monoshock with Progressive Cantilever Suspension

TYRES

Front Tyres	110/ 80 R12
Rear Tyres	100/ 80 R12

IDC RANGE

Eco Mode	150 Kms
City Mode	130 Kms
Sport Mode	105 Kms

LEGACY **WORLD RECORD CHALLENGE**

In 2023, at the legendary Monza Circuit in Italy, VLF founder Alessandro Tartarini made history. Racing an ultra-powerful electric prototype, he set a blistering new World Speed Record for electric scooters, reaching a **top speed of 198 km/h** and accelerating from **0 to 100 km/h in just 3.27 seconds**.

This record-breaking feat was a tribute to his father, Leopoldo Tartarini, who set a similar world record at the same track in 1969. For VLF, this challenge wasn't just about speed—it was a demonstration of the advanced engineering and high-performance DNA that is built into every scooter we create, including the Tennis 1500.
